3. MARGIN AND FUND

- 3.1 The Client agrees to provide and maintain such margin (the “**Margin Requirement**”) in the Margin Account and/or such collateral, guarantees and other security to the Margin Account in such form and amount and on such terms as GSI may in his absolute discretion require from time to time. Such Margin Requirement demanded or required by GSI may exceed any margin requirement prescribed by any Exchange or Clearing House or broker. GSI may change any Margin Requirement in his sole discretion and at any time without prior notice to the Client. If GSI determines that additional margin is required, the Client agrees to deposit with GSI such additional margin forthwith upon demand. No previous Margin Requirement shall establish any precedent.
- 3.2 Without prejudice to Paragraph 3.4 to 3.11, calls or demands for Margin Requirement must be met or satisfied by the Client forthwith upon demand by GSI. The Client shall on demand put GSI in funds or monies or arrange for GSI to be put in funds or monies in time to enable GSI to discharge any liability or to be incurred in connection with trading, dealing or Transactions effected in relation to the Margin Account. The Client shall on demand reimburse GSI for all costs and expenses incurred by him in connection with the trading, dealing or Transaction effected in relation to the Margin Account and/or pay or settle any outstanding amount under the Margin Account.
- 3.3 GSI is not liable to pay interest on the monies or funds paid to or received by GSI in respect of the Margin Account whether on deposit or however described. GSI is entitled to retain for his own benefit any interest or other realized income or increase in value earned or received in respect of such monies or funds. GSI is entitled to charge and the Client agrees to pay interest to GSI in respect of any Deficit or any monies or funds otherwise owing to GSI at any time at such rates and on such other terms as GSI notifies the Client from time to time or failing such notification at a rate equivalent to higher of HK prime rate (as quoted by HSBC) or the cost of fund (i.e. the interest charged by GSI’s bankers) plus seven per cent (7%) as determined by GSI from time to time. Interest shall be payable on the last Business Day of each calendar month or forthwith upon demand by GSI.
- 3.4 The Client shall monitor the Margin Account to that at all times the Margin Account shall contain a sufficient account balance to meet the Margin Requirement. GSI may modify such Margin Requirement for the Client at any time in GSI’s absolute and sole discretion. GSI may reject any Instruction or order of the Client if the Client does not have a sufficient account balance to meet Margin Requirement and may delay the processing of any Instruction or order while determining the correct margin status of the Margin Account. The Client shall maintain, without notice or demand from GSI, a sufficient account balance at all times so as to continuously meet the Margin Requirement. The Client must at all times satisfy whatever Margin Requirement calculated by GSI.
- 3.5 GSI has no obligation to notify the Client of any failure to meet Margin Requirement in the Margin Account prior to GSI exercising his rights, powers, discretion and remedies under the Agreement. The Client understands and accepts that GSI generally will not issue call or demand on Margin Requirement, that GSI generally will not credit the Margin Account to meet any deficiency on Margin Requirement, and that GSI is authorized to exercise any of his rights under Paragraph 18 of Section I in order to satisfy Margin Requirement without prior notice to the Client.
- 3.6 In the event that the balance of the Margin Account has zero equity or is in deficit at any time, or the Margin Account does not have a sufficient account balance to meet Margin Requirement, GSI shall have the right, in his sole discretion, but not the obligation, to exercise any of his rights under Paragraph 18 of Section I at any time and in such manner and in any Market as GSI deems necessary, without prior notice demand or call to the Client. The Client agrees to be responsible for, and promptly pay to GSI, any deficiency in the Margin Account that arises from such exercise of rights or remain after such exercise of rights. GSI shall not have any liability to the Client for any losses or damages sustained by the Client in connection with such exercise of rights (or if GSI experiences a delay in exercising, or does not exercise such rights).
- 3.7 The Client expressly waives and relinquishes any rights to receive prior notice or demand from GSI and agrees that any prior demand, notice, announcement or advertisement shall not be deemed a waiver of GSI’s right to exercise any of his rights under Paragraph 18 of Section I. The Client understands that, in the event that GSI exercise such rights, the Client shall have no right or opportunity to determine the manner of exercising such rights by GSI. GSI may, in his absolute and sole discretion, exercise such rights on any Exchange or Market, and GSI may take the other side of any closing out, liquidating or settlement transaction. In the event that GSI exercise such rights, such exercise of rights shall establish the amount of the Client’s gain or loss and indebtedness to GSI, if any. The Client shall reimburse and hold GSI harmless for all actions, omissions, costs, expenses, fees (including, but not limited to, legal costs), penalties, losses, claims or liabilities associated with any exercise of such rights by GSI. The Client shall be liable to and responsible for all resulting losses, notwithstanding GSI’s delay in or failure to exercise such rights. If GSI executes an order for which the Client did not have sufficient funds, GSI has the right, without notice to the Client, to liquidate the Transaction and the Client shall be responsible for any loss as a result of such liquidation, including any loss, and shall not be entitled to any profit that results from such liquidation.
- 3.8 The Client irrevocably and unconditionally authorizes GSI to transfer, debit, or deduct any money in the Margin Account and/or the Account so as to pay, discharge, satisfy the Client’s indebtedness, obligations and Liabilities to GSI arising from, incurred under and relating to the Agreement, including but not limited to the outstanding purchase monies, fees (including but not limited to market data fees), charges, expenses, commissions and interests payable by the Client under and pursuant to the Agreement. The Client acknowledges and agrees that such deductions may affect the amount of money in the Margin Account to be applied against the Margin Requirement. GSI may exercise any of his rights under Paragraph 4 if deduction of commissions, fees or other charges causes the Margin Account to have an insufficient balance to satisfy the Margin Requirement.

SECTION IV – TERMS AND CONDITIONS FOR SECURITIES MARGIN TRADING

- 3.9 If GSI issues a call or demand for Margin Requirement to the Client, the Client must satisfy such call or demand immediately. The Client agrees to satisfy any call or demand for Margin Requirement issued by GSI by immediately depositing cleared funds in the Margin Account to pay, in full, the under-margined open position.
- 3.10 GSI shall also have the right to exercise any of his rights under Paragraph 18 of Section I without prior notice to the Client in the same manner as provided above:
- (a) if any dispute arises concerning any trading or Transaction of the Client;
 - (b) upon the Client's failure to timely discharge his/her obligations to GSI;
 - (c) upon the Client's insolvency or filing of a petition in bankruptcy or for protection from creditors;
 - (d) upon the appointment of a receiver; or
 - (e) whenever GSI, in his absolute and sole discretion, deems necessary or advisable for the protection of GSI.
- 3.11 Any failure by the Client to comply with this Paragraph 3 shall constitute an Event of Default under Paragraph 18 of Section I.

4. CASH HELD FOR THE CLIENT

Any cash held for the Client in connection with the Margin Account, other than cash received by GSI in respect of Transactions and which is on paid for settlement purposes or which is used to reduce any outstanding balance in the Margin Account or any other Accounts or paid to the Client in accordance with his instruction, shall be credited to a client trust account maintained with a licensed bank as required by applicable laws from time to time.

5. CHARGE

- 5.1 In consideration of GSI agreeing to make available or continue to make available to the Client the Credit Facilities or any other facilities, loans, credits, or advances, the Client, as beneficial owner hereby charges and agrees to charge to GSI and hereby assigns, transfers and release and agrees to assign transfer and release to GSI the following:

- 5.2 The Client agrees that GSI, pursuant to the provisions of these Terms, is entitled to transfer, or procure, demand or request to transfer the Charged Properties to GSI and/or his respective nominee through any clearing and settlement system or other manner. The Client agrees and covenants to deliver to GSI such documents as GSI shall require to effect such transfer of the Charged Properties to GSI and/or his respective nominee.
- 5.3 The Client agrees:
- (a) any dividend, interest, payment, money or fund forming or deriving from all or part of the Charged Properties which may be received by the Client shall be held by the Client on trust for GSI and shall be paid over or delivered to GSI on demand; and
 - (b) notwithstanding Paragraph 5.3(a), upon the occurrence of any of the Events of Default and/or the Charge becoming enforceable, GSI and his nominee shall (and the Client as primary obligor and not merely as guarantor irrevocably instruct and authorize GSI or his nominee to) collect and receive all dividend, interest, payment, money or fund on or with respect to the Charged Properties, and GSI or his nominee shall be entitled to use and apply all the said dividend, interest, payment, money or fund so collected or received in payment, discharge or satisfaction of the Indebtedness.

6. TITLE TO CHARGED PROPERTIES

The Client represents and warrants to GSI that Subject to any security interest of GSI created pursuant to these Terms, the Charged Properties are legally and beneficially owned by the Client, that the Client has good right to charge, assign, transfer and release the same to GSI, that the same are and will remain free from any lien, charge, equity, option, mortgage, third party right or encumbrance of any kind, and that any stocks, shares and other Securities comprised in the Charged Properties are and will be fully paid up.

7. VOTING RIGHT AND CALL

- 7.2 The Client during the continuance of the Charge shall pay all calls or other payments due in respect of any of the Charged Properties and in the event of default GSI (if he thinks fit) shall make such payments on the Client’s behalf. Any monies or funds so paid by GSI shall be repayable by the Client on demand.

8. SUFFICIENT SECURITIES

The Client agrees and undertakes to deposit at all times sufficient Securities, security, properties and monies with GSI. In the event that GSI is in the opinion that the Charged Properties are insufficient or unsatisfactory, the Client agrees and undertakes that upon demand by GSI and the Client shall forthwith pay to GSI such sum in cash or at the option of GSI to deliver to GSI such additional Securities, security, properties or monies as are acceptable to GSI as security in addition to or in substitution for the Charged Properties, and to procure the registration thereof with any appropriate authorities.

9. ENFORCEMENT OF CHARGE

- 9.1 At any time as GSI shall determine appropriate and/or upon the occurrence (in the sole and subject judgment of GSI) of any Event of Default, the Charge shall be immediately enforceable and GSI, without prejudice to any of the rights or powers of GSI under these Terms or other documents, shall have the rights, without notice to the Client, to:
- (i) Appropriate, pay, deduct, transfer or offset the whole or any part of any funds or monies comprised in the Charged Properties at any time and from time to time in or towards payment, satisfaction or discharge of the Indebtedness or any money, fund, indebtedness, obligation or liability secured by the Charge; and/or
 - (ii) Sell, dispose of, liquidate, transfer, trade, deal with or close out (and GSI is authorized to do all such things necessary in connection with such sale, disposal, liquidation, transfer, trading, dealing or closing out) the Charged Properties or any part thereof (to be selected by GSI in his absolute discretion) at any time and from time to time either together or in parcels and either by dealings at any broker’s board through Hong Kong Stock Exchange or other Exchange or by public or private means or in such other manner and for such consideration (whether payable or deliverable immediately or by instalments and whether for cash or other valuable consideration or both) and on such terms and conditions as GSI shall think fit in his absolute discretion without being in any way responsible for any loss occasioned thereby however arising. SECTION IV – TERMS AND CONDITIONS FOR SECURITIES MARGIN TRADING

- 9.3 In any sale, disposal, liquidation, transfer, trading, dealing or closing out pursuant to this Paragraph 9 or these Terms, if less than all the Charged Properties are to be sold, disposed of, liquidated, transferred or closed out, GSI shall in his absolute discretion select which part of the Charged Properties are to be sold, disposed of, liquidated, transferred, traded, dealt with or closed out at any time and from time to time.
- 9.4 The Client agrees that GSI shall have the full and absolute right and discretion to determine at what time and day to exercise or enforce his right and power to carry out or execute the sale, disposal, appropriation, liquidation, transfer, trading, dealing or closing out pursuant to this Paragraph 9 or these Terms. The Client shall not have any right to claim against GSI in respect of any loss arising out of any sale, disposal, appropriation, liquidation, transfer, trading, dealing or closing out pursuant to these Terms, howsoever such loss may have been caused, and whether or not a better price or position could or might have been obtained on the sale, disposal, appropriation, liquidation, transfer, trading, dealing or closing out of any of the Charged Properties by either deferring or advancing the time or date of such sale, disposal, appropriation, liquidation, transfer, trading, dealing or closing out or otherwise whatsoever.
- 9.5 If the proceeds, monies or funds realized or received by exercise or enforcement of the Charge shall be insufficient to pay, discharge or satisfy the Indebtedness and the indebtedness, obligations or liabilities of the Client or the Client Group Company to GSI, then nothing herein contained shall prejudice the rights or powers of GSI against the Client or the Client Group Company for recovery of such insufficiency of deficiency. The Client agrees and undertakes to make good and pay on demand to GSI such insufficiency or deficiency.
- 9.6 No failure, delay or omission on the part of GSI in exercising or enforcing any right, power, privilege or remedy under or in respect of these Terms shall impair such right, power, privilege or remedy, or be construed or operated as a waiver of it. Any single or partial exercise or enforcement of any such right, power, privilege or remedy shall not preclude any further exercise of it or the exercise of any other right, power, privilege or remedy.

10. PROCEEDS ON ENFORCEMENT

- (b) payment, discharge or satisfaction of the Secured Liabilities;
- (c) payment, discharge or satisfaction of the Indebtedness, and all other monies, funds, indebtedness, obligations and liabilities due, payable, owing or incurred by the Client or the Client Group Company to GSI;
- (d) payment or discharge of interest for the time being accruing due; and
- (e) payment, discharge or satisfaction of such obligations, indebtedness, monies and liabilities of the Client of the Client Group Company.

- 11.2 The Client agrees that in the event that GSI shall have made a mistake or an error in the Client's favour in calculating the monies or funds due to GSI in respect of Securities released, discharged or returned then such release, discharge and return shall have no effect and the Charge shall remain in full force and effect.

12. ADDITIONAL & CONTINUING SECURITY

- 12.1 The Charge is in addition to and without prejudice to any collateral or security which GSI shall now or hereafter hold from or on account of the Client. Such collateral or security to which GSI shall be otherwise entitled (including any collateral or security created or made prior to the date of these Terms on the Charged Properties) or the liability of any person not being a party thereto for all or any part of the indebtedness, obligations and liabilities hereby secured shall not be in any way prejudiced or affected by the Charge. GSI shall have full power at its discretion to deal with, exchange, release, modify or abstain from perfecting or enforcing any such collateral or security or rights which GSI shall now or hereafter have from or against such person or to give time for payment or any indulgence to any such

person without discharging or in any way affecting the Client's indebtedness, obligations and liabilities or the Charge or security created hereunder. All moneys or funds received by GSI from the Client or any person liable to pay the same shall be applied by GSI to any account or any transactions to which the same shall be applicable.

- 12.2 The Charge shall be a continuing security notwithstanding any intermediate payment or settlement of account or satisfaction of the whole or any part of the Indebtedness or any sum of money owing by the Client to GSI and notwithstanding the closing of any of the Client's account with GSI, the reopening of a closed account with GSI or the opening of any account by the Client (either alone or jointly with others) with GSI, and shall extend to cover all or any indebtedness, moneys or funds due or payable from the Client to GSI on any account or otherwise as herein provided.
- 12.3 No change in the constitution of the Client nor of the persons, firms or companies or other entity for whose indebtedness, obligations and liabilities the Charge shall at any time stand as security shall affect the validity of or discharge the Charge. If the Client is a firm and in the event of dissolution of the firm the Charge shall apply to all the indebtedness, obligations and liabilities incurred by the firm or in the firm name until the actual receipt by GSI of written notice of dissolution, provided always that such notice of dissolution shall not affect the indebtedness, obligations and liabilities incurred by the Client prior to actual receipt by GSI of such notice. If, however, the dissolution is by reason only of the introduction of a partner into the firm the Charge shall continue and in addition to the indebtedness, obligations and liabilities of the old firm shall apply to all indebtedness, obligations and liabilities due, payable or incurred from or by the new firm thereby constituted as though there had been no change in the firm as previously constituted.
- 12.4 All rights and powers of GSI hereunder and the Charge shall remain in full force and effect notwithstanding any neglect or delay in the enforcement thereof or any indulgence or forbearance given or continued to be given to the Client.

13. PROTECTION & INDEMNITY

- 13.1 GSI shall not be answerable or responsible for the loss of or damage to or diminution in value of any of the Charged Properties however arising whilst the same are in the possession, custody, retention or control of GSI or his agents.
- 13.2 If any action or proceeding is commenced or any claim or demand is made by any person against the Client in connection with any matter herein contained or the Charged Properties or any part thereof or against GSI in connection with any matter herein contained or the Charged Properties or any part thereof, the Client agrees to indemnify GSI against any loss, costs or expenses including all legal or other professional fees which shall be incurred by GSI in connection therewith. If any such action or proceeding is commenced or claim or demand is made, GSI shall be entitled (but not obliged or bound) to take such reasonable steps as he shall deem advisable including the withholding of payment or delivery to the Client of any part or all of the money or fund or the Charged Properties and the cancellation or non-compliance with any orders or instructions which the Client may have given or may give to GSI.

14. DEALING, MORTGAGE AND CUSTODY OF CHARGED PROPERTIES

- 14.1 The Client irrevocably and unconditionally consents, agrees and authorizes GSI at any time and from time to time to:
- (a) deposit, mortgage, charge, pledge, create any security interest over, transfer, assign or release the Charged Properties or any part thereof (either separately or together with other Securities and/or Exchange Contracts and/or properties or assets) by way of collateral or security or otherwise for facilities, credits, loans or advances (of any amount, for any period of time and upon any terms) made or continued to be made to GSI without notice to the Client;
 - (b) use, borrow or lend the Charged Properties or any part thereof (either separately or together with other Securities and/or properties or assets) for the purpose of performing or fulfilling settlement or clearing obligations of GSI between the members of SEHK or the relevant Clearing House without notice to the Client;

 - (d) use, deal with, deposit, mortgage, charge, pledge, create any security interest over, transfer, assign, lend or release the Charged Properties or any part thereof (either separately or together with other Securities and/or Exchange Contracts and/or properties or assets) for any purpose or reason whatsoever, in such manner or way, for such period of time, upon such terms, for such consideration, for such benefit or advantage as GSI shall (in his respective absolute discretion) think fit without notice to the Client.
- 14.2 The Client agrees and acknowledges that all the risks of the Charged Properties are remaining with the Client and that neither GSI nor his respective agent or contractor shall be under any obligation to insure any of them against any kind of risks, which obligation is remained with the Client.
- 14.3 The Client understands, accepts, agrees and acknowledges that all the risks, consequences, effects and results of the consents, agreements, authorizations and acknowledgments contained in this Paragraph 14, and in particular understands, accepts, agrees and acknowledges that the Charged Properties or any part thereof may be subject to mortgage, charge, pledge, lien, security interest or third party interest or right, and the release, discharge or return of the Charged Properties or any part thereof may be subject to the discharge, release or satisfaction of such mortgage, charge, pledge, lien, security interest or third party interest or right.

● **Introduction**

The Stock Exchange of Hong Kong (the Exchange) is introducing a special arrangement for the trading of global Securities in Hong Kong (HK) called the Pilot Programme (PP). Initially, a small number of large established Securities with track record listed on the National Association of Securities Dealers Automatic Quotation (Nasdaq) and the American Stock Exchange (Amex) are to be quoted on the Exchange under this arrangement.

The PP Securities are aimed at sophisticated investors. You should consult your broker and become familiarized with the PP before trading in the PP Securities.

● **Main Characteristics of Pilot Programme Securities**

- Listed on Nasdaq or AMEX;
- May also include a number of exchange traded funds (ETFs);
- Are not regulated as a primary or secondary listing on the Exchange's Main Board or GEM;
- They are admitted into the Exchange for trading only;
- Trading on the Exchange is regulated by Law of Hong Kong and Exchange rules and in particular, the Securities are subject to the market misconduct provisions of the Securities and Futures Ordinance;
- In general, suspension and resumption of trading on PP Securities will follow that of the home market but the Hong Kong Securities and Futures Commission (SFC) and the Exchange retain the right to suspend, halt trading and remove any security from trading;
- There will be no public offering of PP Securities in Hong Kong; and
- For a full list of the PP Securities, you are advised to refer to the Exchange's website (<http://www.hkex.com.hk>).

● **Trading and Settlement Arrangement**

- Trading currency – In Hong Kong, these securities are traded and settled in HK or US dollars although they are traded and settled in US dollars in the US;
- Stock codes – To differentiate the PP Securities from other Securities in the Exchange's Main Board and GEM, the stock codes of these Securities are within the 4331 to 4430 range;
- Board lots – The Securities are traded in board lots ranging from ten to one hundred shares per board lot depending on the price of the Securities at the time of admission to trading. You can access the Exchange's website for information on board lot sizes when the Securities commence trading in Hong Kong;
- Trading spread – The trading spread follows those of Hong Kong Securities and you can refer to the Second Schedule of the Rules of the Exchange or the Exchange's website for details;
- Short selling – Securities under PP are eligible for short selling with the tick rule;
- Settlement – These Securities follow the standard T+2 settlement period by Continuous Net Settlement in CCASS, the central clearing and settlement system operated by Hong Kong Securities Clearing Company Limited (HKSCC), for trades concluded on the Exchange. You should note that the US settlement period is T+3.
- CCASS rules – All CCASS rules for clearing, settlement, custodian and nominee services apply to the PP Securities;
- Trading mechanism – As with Hong Kong Securities, the PP Securities are traded through the Exchange's Automatic Order Matching and Execution System (AMS) under an order-driven and auto-matching mechanism. Designated market makers for PP Securities may participate in AMS to provide two-way prices on the AMS order book. Market making is continuous and competitive;
- Trading by overseas investors – Overseas investors should note and comply with the applicable regulatory restrictions in their country of domicile governing purchases or sale of overseas Securities prior to trading the PP Securities on the Exchange.

● **Information Dissemination and Disclosure of Financial Information**

You are advised to obtain information on filings relating to the PP issuers from multiple sources as the information / filings are delivered on a best endeavor basis. The following are, among others, information channels for the PP Securities:

Issuers' disclosure

- Issuers' websites, Nasdaq's website (www.nasdaq.com), Amex's website (www.amex.com) and other third party websites which may or may not be hyperlinked from the Exchange's website;
- EDGAR, the Electronic Data Gathering, Analysis and Retrieval system website (www.sec.gov), which contains all US issuers' filings to the US securities and Exchange Commission.

Note: You should note that its US counterpart, the Exchange is not in a position to verify the accuracy of the information disclosed. In addition, third party reports and analysis reflect the views of their authors or commentators.

Trading data of PP Securities in Hong Kong

- Market prices and turnover of the PP Securities traded on the Exchange can be assessed through brokers, newspapers and information service providers similar to that of Hong Kong Securities;
- PP Securities' US market data are available on the Nasdaq or Amex website;
- PP Securities' US market closing prices and turnovers are disseminated by the Exchange to Exchange Participants and information vendors.

● **Share Registration and Other Services**

In some areas, share registration and related services are substantially different from those of other Securities. The following are noteworthy:

SECTION VI – PILOT PROGRAMME FOR TRADING US SECURITIES

- Securities of the PP issuers quoted in Hong Kong are fungible to those in the US and shareholders can transfer their Securities in the US for sale in Hong Kong and vice versa;
 - PP issuers do not have to appoint any share registrar in Hong Kong and all Securities in Hong Kong are held under HKSCC's account with US Depository Trust Co (DTC). Owners of these Securities in Hong Kong are not registered shareholders but have beneficial interest in the Securities;
 - All owners of the Securities may request issuance of physical scrip, if available, indirectly through HKSCC. The issuance process normally takes much longer time than for Hong Kong Securities. In addition, HKSCC does not offer deposit service for these Securities and physical scrips can only be deposited through brokers offering such services;
 - Similar to Hong Kong Securities, odd lots may be created during corporate action on share splitting or consolidations;
 - Beneficial owners of the Securities held under HKSCC participants can collect their dividends, if any, in either HK or US dollars, at their option. However, for dividend collection, HKSCC may require the shareholders to declare whether they are US taxpayers, for reporting to the US authorities;
 - As the Exchange is not providing trading counters for warrants, rights or debt issues of the Securities quoted under PP, beneficial owners of these additional Securities, if declared by the issuer, may transfer them to brokers or custodians who are DTC participants or to sell or redeem the Securities in the US market on their behalf as part of HKSCC's nominee service.
- **Fees and Charges**
The following table illustrates the particulars on fees and charges relating to the PP Securities. For the latest HKSCC fees and charges, please refer to the Exchange's website (<http://www.hkex.com.hk>).

| Summary of transaction costs | |
|--|--|
| Transaction Levy | The same as for HK Securities |
| Stamp duty | Not applicable |
| Withholding tax | Will be collected by HKSCC's agent in the US on dividends paid on PP Securities held under HKSCC. Refund of the withholding tax may be a complex and time-consuming process. Upon request, HKSCC will issue a confirmation to investors who have an Investor Participant Account with HKSCC of the net amount of dividends paid (i.e. after netting off the withholding tax) with respect to their holdings in the relevant Securities as at the entitlement record date. For other investors, they should approach the Broker or custodians, who will request and obtain the confirmation from HKSCC on their behalf. |
| Capital gains tax | Apply to US taxpayers who are beneficial owners of US Securities (including the PP Securities) but not to non-US taxpayers. |
| Summary on tariff for Pilot Programme Securities | |
| Standard CCASS tariff applies except for the following, which will be charged to cover the fees payable to DTC and CCASS processing costs. | |
| Stock maintenance fee | Monthly charge of \$0.25 per 100 shares, of fewer. The fee is calculated on the daily average stock balance of PP Securities in stock accounts of each Participant for the month and is payable monthly. No stock custody fee will be charged. |
| Stock withdrawal fee | \$600 per instruction plus out-of-pocket expenses incurred by HKSCC. The fee also applies to the withdrawal of Securities entitlements accruing from PP Securities which are not eligible Securities. |
| Handling fee for warrant conversions, voluntary takeovers, tender offers, or open offers | \$600 per instruction plus out-of-pocket expenses incurred by HKSCC |
| Cross-border transfer fee for receipts / deliveries of PP Securities* | \$200 per receipt / delivery instruction plus out-of-pocket expenses charged to HKSCC by DTC in which the Securities are transferred to or from HKSCC. In addition, HK shareholders may be charged a fee by their appointed agents / brokers offering this service in Hong Kong and in the US. |

* The Cross-border transfer fee will be charged for the transfer of Securities between DTC and CCASS only. This fee will be charged on the settlement of trades concluded in Hong Kong.

SECTION IX – RISK DISCLOSURE STATEMENTS AND DISCLAIMERS

By requesting GSI to provide the Client with the services as outlined under the Agreement, the Client has read, fully understand and agree to the following risk disclosure statements and disclaimers:-

Words and expressions defined in all other Sections of this Terms and Conditions shall, except as otherwise re-defined herein or unless there is something in the subject or context inconsistent therewith, have the same meanings when used in this Section.

PART A – RISK DISCLOSURE STATEMENTS FOR CASH ACCOUNT AND MARGIN ACCOUNT

1. RISK OF SECURITIES TRADING

The prices of Securities fluctuate, sometimes dramatically. The price of a Security may move up or down, and may become valueless. It is as likely that losses will be incurred rather than profit made as a result of buying and selling Securities.

2. FOREIGN EXCHANGE RISK INVOLVED IN IPO AND PLACING

If the Offer Securities (as defined in Section III) are denominated in Foreign Currency (as defined in Section III) or in both Hong Kong Dollar and Foreign Currency, investor are exposed to exchange risk and may suffer loss as a result of the fluctuation in exchange rate.

3. RISK OF TRADING GROWTH ENTERPRISE MARKET (“GEM”) STOCKS

GEM stocks involve a high investment risk. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. GEM stocks may be very volatile and illiquid.

The Client should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Current information on GEM stocks may only be found on the internet website operated by the Stock Exchange. GEM Companies are usually not required issue paid announcements in gazetted newspaper.

The Client should seek independent professional advice if the Client is uncertain of or has not understood any aspect of this risk disclosure statement or the nature and risks involved in trading of GEM stocks.

4. RISK OF TRADING NASDAQ-AMEX SECURITIES AT THE STOCK EXCHANGE

The Securities under the Nasdaq-Amex Pilot Program (“PP”) are aimed at sophisticated investors. The Client should consult a licensed or registered person and become familiarized with the PP before trading in the PP Securities. The Client should be aware that the PP Securities are not regulated as a primary or secondary listing on the Main Board or GEM of the Stock Exchange.

5. RISK OF PROVIDING AN AUTHORITY TO REPLEDGE YOUR SECURITIES COLLATERAL

There is a risk if you provide the licensed or registered person with an authority that allows it to apply your securities of securities collateral pursuant to a securities borrowing and lending agreement, repledge your securities collateral for financial accommodation or deposit your securities collateral as collateral for the discharge and satisfaction of its settlement obligations and liabilities.

If your securities or securities collateral are received or held by the licensed or registered person in Hong Kong, the above arrangement is allowed only if you consent in writing. Moreover, unless you are a professional investor, your authority must specify the period for which it is current and be limited to not more than twelve (12) months. If you are a professional investor, these restrictions do not apply.

Additionally, your authority may be deemed to be renewed (i.e. without your written consent) if the licensed or registered person issues you a reminder at least fourteen (14) days prior to the expiry of the authority, and you do not object to such deemed renewal before the expiry date of your then existing authority.

You are not required by any law to sign these authority. But an authority may be required by licenced or registered persons, for example, to facilitate margin lending to you or allow your securities or securities collateral to be lent to or deposited as collateral with third parties. The licenced or registered person should explain to you the purposes for which one of these authorities is to be used.

If you sign one of these authorities and your securities or securities collateral are lent to or deposited with third parties, those third parties will have a lien or charge on your securities or securities collateral. Although the licenced or registered person is responsible to you for securities or securities collateral lent or deposited under your authority, a default by it could result in the loss of your securities or securities collateral.

A cash account not involving securities borrowing and lending is available from most licensed or registered persons. If you do not require margin facilities or do not wish your securities or securities collateral to be lent or pledged, do not sign the above authorities and ask to open this type of cash account.

6. RISKS OF CLIENT ASSETS RECEIVED OR HELD OUTSIDE HONG KONG

Client assets received or held by the licensed or registered person outside Hong Kong are subject to the applicable laws and regulations of the relevant overseas jurisdiction which may be different from the Securities and Futures Ordinance and the

SECTION IX – RISK DISCLOSURE STATEMENTS AND DISCLAIMERS

rules made thereunder. Consequently, such client assets may not enjoy the same protection as that conferred on client assets received or held in Hong Kong.

7. RISK OF INTERNET TRADING

If you undertakes Transactions via electronic trading services, you will be exposed to risks associated with the electronic trading system including the failure of hardware and software. The result of any system failure may be that your order is either not executed according to your instructions or is not executed at all.

You acknowledges and bears the risk that messages sending over the internet may be delayed due to internet traffic jam or other reasons. The licensed or registered person shall not be responsible for any consequences of these delays, including without limitation delays in the transmission of instructions/orders to the place of execution or the transmission of reports of execution to you due to any failure of communication facilities, or any other delays beyond the reasonable control of the licensed or registered person.

Communications over the internet may be subject to transmission blackout, interruption, interception, or incorrect data transmission due to the public nature of the internet or other reasons that are beyond the licensed or registered person's control. Messages sent over the internet cannot be guaranteed to be completely secure. You shall be aware of and bear the risk of any delay, loss, diversion, alteration, corruption or virus infection of any messages/instructions either sent to or received from the licensed or registered person's systems. The licensed or registered person shall not be responsible for any losses or damages incurred or suffered as a result thereof.

8. RISK OF E-STATEMENT SERVICE

Access to the internet or other electronic medium may be limited or unavailable during periods of peak demand, market volatility, systems upgrades or maintenance or for other reasons. Any communication through the internet or other electronic medium may be subject to interruption, transmission blackout, and delayed transmission due to unpredictable traffic congestion and other reasons beyond the licensed or registered person's control. Internet is, due to technical limitation, an inherently unreliable medium of communication. As a result of such unreliability, there may be delays in the transmission and receipt of information. The statement may not be sent to the designed email address at all. Moreover, communications and personal data may be accessed by unauthorized third parties, and there are risks of misunderstanding or error in any communication and that such risks shall be absolutely borne by you.

PART B – RISK DISCLOSURE STATEMENT FOR MARGIN ACCOUNT

1. RISK OF MARGIN TRADING

The risk of loss in financing a transaction by deposit of collateral is significant. The Client may sustain losses in excess of the Client's cash and any other assets deposited as collateral with GSI. Market conditions may make it impossible to execute contingent orders, such as "stop-loss" or "stop-limit" orders. The Client may be called upon at short notice to make additional margin deposits or interest payments. If the required margin deposits or interest payments are not made within the prescribed time, the Client's collateral may be liquidated without the Client's consent. Moreover, the Client will remain liable for any resulting deficit in the Client's account and interest charged on the Client's account. The Client should therefore carefully consider whether such a financing arrangement is suitable in light of the Client's own financial position and investment objectives.

PART C – RISKS OF TRADING IN DERIVATIVES AND STRUCTURED PRODUCTS

1. RISKS INVOLVED IN VARIOUS DERIVATIVES AND STRUCTURED PRODUCTS

- i. **Issuer Default Risk:**
In the event that a structured product issuer becomes insolvent and defaults on their listed securities, Clients will be considered as unsecured creditors and will have no preferential claims to any assets held by the issuer. Clients should therefore pay close attention to the financial strength and credit worthiness of structured product issuers.
- ii. **Uncollateralized Product Risk:**
Uncollateralized structured products are not asset backed. In the event of issuer bankruptcy, Clients can lose their entire investment. Investors should read the listing documents to determine if a product is uncollateralized.
- iii. **Gearing Risk:**
Structured products such as derivative warrants and callable bull/bear contracts (CBBC) are leveraged and can change in value rapidly according to the gearing ratio relative to the underlying assets. Clients should be aware that the value of a structured product may fall to zero resulting in a total loss of the initial investment.
- iv. **Expiry Considerations:**
Structured products have an expiry date after which the issuer may become worthless. Clients should be aware of the expiry time horizon and choose a product with an appropriate lifespan for their trading strategy.
- v. **Extraordinary Price Movements:**
The price of a structured product may not match its theoretical price due to outside influences such as market supply and demand factors. As a result, actual traded prices can be higher or lower than the theoretical price.
- vi. **Foreign Exchange Risk:**

SECTION IX – RISK DISCLOSURE STATEMENTS AND DISCLAIMERS

Clients trading structured products with underlying assets not denominated in Hong Kong dollars are also exposed to exchange rate risk. Currency rate fluctuation can adversely affect the underlying asset value, also affecting the structured product price.

- vii. **Liquidity Risk:**
The Exchange requires all structured product issuers to appoint a liquidity provider for each individual issue. The role of liquidity providers is to provide two way quotes to facilitate trading of their products. In the event that a liquidity provider defaults or ceases to fulfill its role, Clients may not be able to buy or sell the product until a new liquidity provider has been assigned.

2. SPECIFIC RISK OF TRADING DERIVATIVE WARRANTS (“DW”)

- i. **Issuer Risk:**
In the event that a structured product issuer becomes insolvent and defaults on their listed securities, Clients will be considered as unsecured creditors and will have no preferential claims to any assets held by the issuer. Clients should therefore pay close attention to the financial strength and credit worthiness of structured product issuers.
- ii. **Gearing Risk:**
Although DW may cost a fraction of the price of the underlying assets, a DW may change in value more or less rapidly than the underlying asset. In the worst case, the value of the DW falls to zero and holders lose their entire purchase price.
- iii. **Limited Life:**
Unlike stocks, DW have an expiry date and therefore a limited life. Unless the DW are in-the-money, they become worthless at expiration.
- iv. **Time Decay Risk:**
One should be aware that other factors being equal, the value of derivative warrants will decrease over time. Therefore, derivative warrants should never be viewed as products that are bought and held as long term investments.
- v. **Volatility Risk:**
Other factors being equal, an increase in the volatility of the underlying asset should lead to a higher warrant price and a decrease in volatility lead to a lower derivative warrant price.
- vi. **Market Forces:**
In addition to the basic factors that determine the theoretical price of a DW, DW prices are also affected by all other prevailing market forces including the demand for and supply of the DW. Supply and demand forces may be greatest when a DW issue is almost sold out and when issuers make further issues of an existing DW issue.

3. SPECIFIC RISK OF TRADING CALLABLE BULL/BEAR CONTRACTS (“CBBC”)

- i. **Mandatory Call Risk:**
CBBC are not suitable for all types of investors and investors should consider their risk appetite prior to trading. In any case, one should not trade in CBBC unless he/she understands the nature of the product and is prepared to lose the total amount invested since a CBBC will be called by the issuer when the price of the underlying asset hits the Call Price and trading in that CBBC will expire early. Payoff for Category N CBBC will be zero when they expire early. When Category R CBBC expire early the holder may receive a small amount of Residual Value payment, but here may be no Residual Value payment in adverse situations. Brokers may charge their clients a service fee for the collection of the Residual Value payment from the respective issuers.

In general, the larger the buffer between the Call Price and the Spot Price of the underlying asset, the lower the probability of the CBBC being called since the underlying asset of that CBBC would have to experience a larger movement in the price before the CBBC will be called. However, at the same time, the larger the buffer, the lower the leverage effect will be.

Once the CBBC is called, even though the underlying asset may bounce back in the right direction, the CBBC which has been called will not be revived and investors will not be able to profit from the bounce-back.

Besides, the Mandatory Call Event (MCE) of a CBBC with overseas assets as underlying may be triggered outside the Exchange’s trading hours.
- ii. **Gearing Effects:**
Since a CBBC is a leveraged product, the percentage change in the price of a CBBC is greater compared with that of the underlying asset. Investors may suffer higher losses in percentage terms if they expect the price of the underlying asset to move one way but it moves in the opposite direction.
- iii. **Limited Life:**
A CBBC has a limited life, as denoted by the fixed expiry date, with a lifespan of 3 months to 5 years. The life of a CBBC may be shorter if called before the fixed expiry date. The price of a CBBC fluctuates with the changes in the price of the underlying asset from time to time and may become worthless after expiry and in certain cases, even before the normal expiry if the CBBC has been called early.
- iv. **Movement with underlying asset:**
Although the price of a CBBC tends to follow closely the price of its underlying asset, but in some situations it may not (i.e. delta may not always be closed to one). Prices of CBBC are affected by a number of factors, including its

SECTION IX – RISK DISCLOSURE STATEMENTS AND DISCLAIMERS

own demand and supply, funding costs and time to expiry. Moreover, the delta for a particular CBBC may not always be closed to one, in particular when the price of the underlying asset is close to Call Price.

- v. **Liquidity:**
Although CBBC have liquidity providers, there is no guarantee that investors will be able to buy/sell CBBC at their target prices any time they wish.
- vi. **Funding costs:**
The issue price of a CBBC includes funding costs and issuers will specify the formula for calculating the funding costs of their CBBC at launch in the listing documents. Since the funding costs for each CBBC issue may be different as it includes the issuer's financing/stock borrowing costs after adjustment for expected ordinary dividend of the stock (if the underlying is a Hong Kong stock since the CBBC will not be adjusted for ordinary dividend) plus the issuer's profit margin, investors are advised to compare the funding costs of different issuers for CBBC with similar underlying assets and terms. The funding costs will gradually be reduced over time along with the CBBC in the secondary market as the CBBC moves towards expiry. In general, the longer the duration of the CBBC, the higher the total funding costs will be since it is similar to investors borrowing for a longer term to trade in the underlying asset. When a CBBC is called, the CBBC holders (investors) will lose the funding cost for the full period since the funding cost is built into the CBBC price upfront at launch even though with the MCE, the actual price of funding for the CBBC turns out to be shorter. In any case, investors should note that the funding costs of a CBBC after launch may vary during its life and the Liquidity Provider is not obliged to provide a quote for the CBBC based on the theoretical calculation of the funding costs for that CBBC at launch.
- vii. **Trading of CBBC close to Call Price:**
When the underlying asset is trading close to the Call Price, the price of a CBBC may be more volatile with wider spreads and uncertain liquidity. CBBC may be called at any time and trading will terminate as a result.

However, the trade inputted by the investor may still be executed and confirmed by the investors after the MCE since there may be some time lapse between the MCE time and suspension of the CBBC trading. Any trades executed after the MCE (i.e. Post MCE Trades) will not be recognized and will be cancelled. Therefore, investors should be aware of the risk and ought to apply special caution where the CBBC is trading close to the Call Price.

Issuers will announce the exact call time within 1 hour after the trigger of MCE, and HKEx will also send the list of Post MCE Trades to the relevant Exchange Participants (brokers) who in turn will inform their clients accordingly. For avoidance of doubt on whether their trades have been cancelled (i.e. whether they are Post MCE Trades), the investors may check with their brokers.

- viii. **CBBC with overseas underlying assets:**
Investors trading CBBC with overseas underlying assets are exposed to an exchange rate risk as the price and cash settlement amount of CBBC are converted from a foreign currency into Hong Kong Dollar. Exchange rates between currencies are determined by force of supply and demand in the foreign exchange markets which are affected by various factors.

Besides, CBBC issued on overseas underlying assets may be called outside the Exchange's trading hours. In such case, the CBBC will be terminated from trading on the Exchange in the next trading session or soon after the issuer has notified the Exchange about the occurrence of the MCE. There will be no automatic suspension of the CBBC by AMS/3. For Category R CBBC, valuation of the residual value will be determined on the valuation day according to the terms in the listing documents.

4. SPECIAL RISK OF TRADING EXCHANGE TRADED FUNDS ("ETFs")

- i. **Market Risk:**
ETFs are typically designed to track the performance of certain indices, market sectors, or groups of assets such as stocks, bonds, or commodities. ETF managers may use different strategies to achieve this goal, but in general they do not have the discretion to take defensive positions in declining markets. Clients must be prepared to bear the risk of loss and volatility associated with the underlying index/assets.
- ii. **Tracking Errors:**
Tracking errors refer to the disparity in performance between an ETF and its underlying index/assets. Tracking errors can arise due to factors such as the impact of transaction fees and expenses incurred to the ETF, changes in composition of the underlying index/assets, and the ETF manager's replication strategy. (The common replication strategies include full replication/representative sampling and synthetic replication which are explained in more details below.)
- iii. **Trading at Discount or Premium:**
ETF may be traded at a discount or premium to its Net Asset Value (NAV). This price discrepancy is caused by supply and demand factors, and may be particularly likely to emerge during periods of high market volatility and uncertainty. This phenomenon may also be observed for ETFs tracking specific markets or sectors that are subject to direct investment restrictions.
- iv. **Foreign Exchange Risk:**
Clients who are trading ETFs with underlying assets not denominated in Hong Kong dollars are also exposed to exchange rate risk. Currency rate fluctuations can adversely affect the underlying asset value, also affecting the ETF price.

SECTION IX – RISK DISCLOSURE STATEMENTS AND DISCLAIMERS

- v. Liquidity Risk:
Securities Market Makers (“SMM”) are Exchange Participants that provide liquidity to facilitate trading in ETFs. Although most ETFs are supported by one or more SMM, there is no assurance that active trading will be maintained. In the event that the SMM default or cease to fulfill their role, Clients may not be able to buy or sell the product.

Counterparty risk involved in ETFs with different replication strategies:

- (a) Full replication and representative sampling strategies:

An ETF using a full replication strategy generally aims to invest in all constituent stocks/assets in the same weightings as its benchmark. ETFs adopting a representative sampling strategy will invest in some, but not all of the relevant constituent stocks/assets. For ETFs that invest directly in the underlying assets rather than through synthetic instruments issued by third parties, counterparty risks tend to be less of a concern.

- (b) Synthetic replication strategies:

ETFs utilizing a synthetic replication strategy use swaps or other derivative instruments to gain exposure to a benchmark. Currently, synthetic replication ETFs can be further categorized into two forms:

- (i) Swap-based ETFs: Total return swaps allow ETF managers to replicate the benchmark performance of ETFs without purchasing the underlying assets.
(total return swaps)
Swap-based ETFs are exposed to counterparty risk of the swap dealers and may suffer losses if such dealers default or fail to honor their contractual commitments.
- (ii) Derivative embedded ETFs: ETF managers may also use other derivative instruments to synthetically replicate the economic benefit of the relevant benchmark. The derivative instruments may be issued by one or multiple issuers. Derivative embedded ETFs are subject to counterparty risk of the derivative instruments' issuers and may suffer losses if such issuers default or fail to honor their contractual commitments.

Even where collateral is obtained by an ETF, it is subject to the collateral provider fulfilling its obligations. There is a further risk that when the right against the collateral is exercised, the market value of the collateral could be substantially less than the amount secured resulting in significant loss to the ETF.

It is important that investors understand and critically assess the implications arising due to different ETF structures and characteristics.
